July & August

Intern Report

bi-weekly cases

CC Conference

Mon-Wed & Fri (w/lunch)
Outpatient-Based
Driven by Specialty

Controversies in Medicine

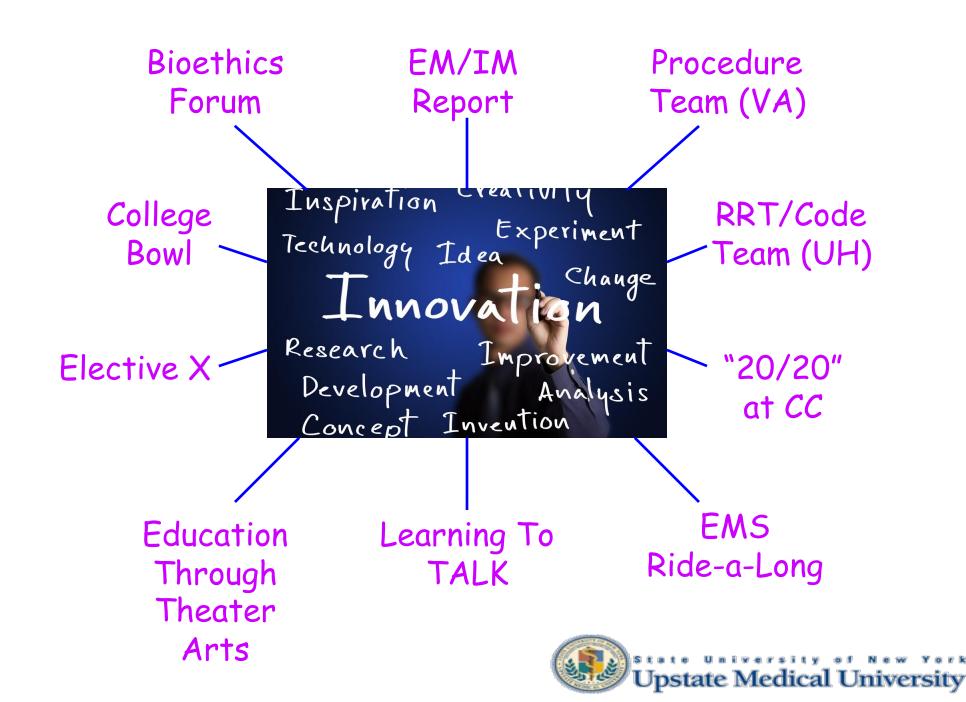

Some Thursdays (w/lunch)

Senior Capstones

1st & 3rd Thursdays (w/lunch)

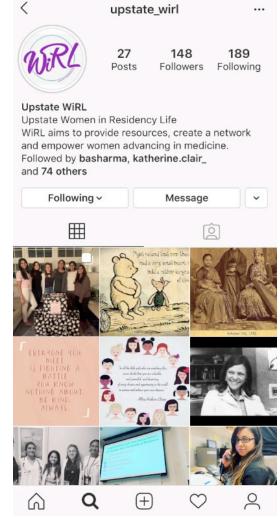

Wellness

MICU J and Wellness Rotation - Curriculum

Educational Purpose

Seemingly contradictory, we have created this 1-week rotation to mitigate fatigue and stress on the professional front while endeavoring to promote wellness on a personal level. MICU J will offer an additional house officer to support our critical care patients on our most vulnerable days (such as during didactic requirements or on weekends) while Wellness will protect the same house officer at all other times of the week to focus on personal needs.

About Syracuse & Central NY

Prospective Housestaff

Upstate's innovative Internal Medicine program allows residents to prepare for careers in primary health care, subspecialty training, academic medicine, and community health.

We're a fully accredited residency program with a substantial referral area. Patients range from inner-city underserved populations to the suburban middle/upper class. Our residents care for these patients under the direction of a dedicated, accessible, and personable faculty.

DIRECTOR'S MESSAGE

Stephen J. Knohl, MD Program Director

Welcome to SUNY Upstate Medical University's Internal Medicine Residency Training Program. By way of introduction, I would like to share with you a story... Read more >
